

Willowbrook Medical Centre

NHS Enhanced Summary Care Record with additional information

As you are registered with this practice, Dr Astles would like to recommend that you take advantage of the Summary Care Record (SCR). It includes important information about your health:

- Medicines you are taking
- Allergies you suffer from
- Any bad reactions to medicines

You can also choose to have additional information included in your SCR, which can improve the care you receive. This information includes:

- Your illnesses and health problems
- Operations and vaccinations you have had in the past
- How you would like to be treated – such as where you would prefer to receive care
- What support you might need
- Who should be contacted for more information about you

You may need to be treated by health and care professionals outside of the practice who do not know your medical history. Having the additional information SCR can help the staff involved in your care access information more quickly, allowing them to make informed decisions about your healthcare.

What to do next

If you would like your SCR to be enhanced with additional information (or the SCR of someone you are a carer for), then please complete this form, to be returned to your GP surgery. If you have previously selected to opt out of this, you can choose to update this now.

Name of patient:

Date of birth: Patient's postcode:

Surgery name and location:

NHS number (if known):

Signature: Date:

If you are filling out this form on behalf of another person, please ensure that you fill out their details and sign the form above, and provide your own details below:
